Office of Research Integrity Compliance (https://ovpr.uconn.edu/services/rics/)
You must ensure that your research project is conducted in compliance with federal, state, and institutional regulations. You will want to confer with your faculty advisory committee and refer to the information provided by the office of Research Integrity and Compliance Services (RICS).
RICS works with the faculty oversight committees to promote the ethical and responsible conduct of research and to ensure compliance with regulatory requirements relating to research involving human participants, vertebrate animal subjects, biological materials, recombinant/synthetic nucleic acids, biohazards, radiation hazards, chemical hazards, and stem cells.
- o Institutional Review Board (IRB)
  https://ovpr.uconn.edu/services/rics/irb/
  Reviews for compliance with guidelines for research with human subjects
